

Join Our Passionate Team: Veterinarian Wanted for Diverse Practice

Are you a dedicated veterinarian with a passion for bovine, equine, and small animal medicine? Do you thrive in a dynamic environment that offers a variety of cases and the opportunity to work with different species? If so, we would love to hear from you!

Mundy Veterinary Services is seeking a talented and compassionate Veterinarian to join our growing team. Our practice serves a diverse client base, offering a mix of large and small animal care, including beef cattle, equine, and small animal patients. This is a unique opportunity for a veterinarian to expand their skills, work in a collaborative setting, and make a difference in the lives of animals and their owners.

What We Offer:

- **Diverse Case Load:** Enjoy a varied mix of beef cattle, equine, and small animal cases, providing the perfect balance for a veterinarian looking to work across species.
- **Supportive Team:** Collaborate with experienced veterinarians, technicians, and staff who are committed to delivering high-quality care.
- **State-of-the-Art Equipment:** Utilize modern diagnostic tools and equipment, helping you provide the best possible care for all patients.
- **Work-Life Balance:** Enjoy a flexible schedule with time to recharge and be part of a team that understands the importance of balance in the veterinary profession.

Key Responsibilities:

- **Beef Cattle:** Provide routine and emergency care for beef cattle, including preventative medicine, herd health management, disease prevention, and treatment.
- **Equine Medicine:** Diagnose, treat, and manage medical, surgical, and emergency cases in horses, including preventive care, vaccinations, and dentistry.
- **Small Animal Care:** We are currently offering routine wellness exams and vaccines for canine kennels and our farm clientele. This is an area we are open to expanding in the near future!
- **Client Education:** Communicate effectively with clients about animal health, treatment options, and preventative care. Build lasting relationships based on trust and care.
- **Team Collaboration:** Work alongside fellow veterinarians, technicians, and support staff to provide excellent medical care and service to our clients.

Qualifications:

- **Degree:** Doctor of Veterinary Medicine (DVM) or equivalent.
- **Licensure:** Must be licensed or eligible for licensure in Ontario, Canada

- Experience: Previous experience in beef, equine, and/or small animal medicine preferred, but new graduates with a passion for diverse veterinary work will be considered.
- Skills: Strong diagnostic, surgical, and communication skills. Ability to work both independently and as part of a team.
- Personal Qualities: Compassionate, client-focused, and committed to ongoing professional development.

Position Type:

Full-Time position with flexible scheduling to promote work-life balance. Emergency on-call duties are shared within the team.
